Omni has been named “Trade Ally of the year by Southern California Gas Co.”. TwinMed, the industry leader in cost saving solutions, is the exclusive supplier of Omni equipment and chemicals for the Long Term Care industry. The program which includes Omni’s LUX Hydroxyl generators paired with highly engineered laundry and housekeeping chemicals, saves the average 100 bed Nursing Home \$8,000 to \$10,000 per year by conserving water and natural gas. Other benefits of the program include softer, more comfortable linens that last longer, and shortened dry times. Since the program began in September of 2015 it has saved over 7,000,000 gallons of water for our customers.

For more information regarding the cost saving program and benefits, contact **Peter Menaker the Manager, Patient Room Division of TwinMed by phone at 704-576-6767 or email [pmenaker@twinmed.com](mailto:pmenaker@twinmed.com)** to learn about the different options available:

- Free installation
